

# WHERE ARE YOU

## ...on the Path to Leadership?

WellSprings Leaders are regular members of the congregation – like you – who commit their time and talents to moving our community forward. Becoming a leader means deepening your connections here, over time. You may move back and forth along this path, or you may not take the steps below in order – but each one is designed to help you grow your own soul, get to know our community better, and discover where you have potential to use your gifts, in leadership. So... where are you, on the path?
